1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the Abstract:

Line 1—"uni" has been replaced by "unit".

In the Specification:

Page 5, line 1—"Fig. 9 is another diagram" has been replaced by "Figs. 9A – 9D are diagrams".

3. This Examiner's Amendment corrects a typographical error in the abstract and corrects the specification to refer to the figs 9A – 9D that actually occur in the drawings.

4. The following is an examiner's statement of reasons for allowance:

The Examiner is in general agreement with applicant's assertions in the 16 June 2005 response, regarding the amended independent claims 1, 7, 8—that the inclusion of "rights information including a set of rights, each right associated with" all of "a specific content, an equipment identifier and a control flag which indicates a set of permitted operations" and "an icon chosen among a set of icons...from different forms of icons among the set of icons representative of said permitted operations and the equipment identifier" sufficiently distinguishes the claims over the prior art now made of record. Specifically overcome is the previous 35 USC 103 rejection based upon Schreiber et al. (US #6,298,446 B1) in view of Ahmad (US #5,925,127), where

Schreiber et al.'s "icon" does not acquire this extent of indication, when supported by a "flag" as per Ahmad.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
